Gilbert Beebe Radiation Fellowship in honor of Dr. Beebe’s remarkable career in radiation epidemiology and statistics. The recipient will work at the Radiation Epidemiology Branch, National Cancer Institute and the Radiation Effects Research Foundation (RERF) in Hiroshima, Japan on research related to the atomic bomb survivors and other radiation topics. The fellowship is intended for mid to senior level epidemiologists or biostatisticians and allows great flexibility in working arrangements. The fellowship will typically be for 4 months and will include travel to RERF. The recipient will be supported by the National Academy of Sciences. For further information, contact: Kevin Crowley, Director, Board on Radiation Effects Research, National Academy of Sciences (202) 334-3066; Email: kcrowley@nas.edu. This fellowship is sponsored by Department of Energy, National Academy of Sciences, National Cancer Institute (National Institutes of Health, Department of Health and Human Services), and the Radiation Effects.
